GERMAN RIGHT REPORTED BROKEN AND IN FLIGHT

LONDON, Sept. 30 .-- 12: 15, a.m. -- By Bulletin Leased Wire --- A Paris despatch to the Exchange Telegraph Company says: "It is stated here tonight (Tuesday) that the German right has been entirely broken and is now being pursued by the allies. All the automobiles in Northern France have been requisitioned for the purpose of pursuit. Armored trains with mitrailleuses are also being used to pursue the retreating enemy. The official communication issued at 3 o'clock demonstrates unmistakably that the Germans have been surrounded in the Somme department, the French front extending further east. It is officially stated that Peronne has been re-captured."

The above message has been referred to the British official press bureau, which, while not objecting to its publication, takes no responsibility for its correctness. The fact that it is passed however gives it considerable weight.

A delegation representing the Union of Alberta Urban Munici Chion of Atherta Urban Municipalities have asked the Provincial Government to appoint a local government board with power to control the capital expenditures of each municipality. A board, without such controlling author-ty would of course be useless as an across for maintaining no. an agency for maintaining mu-nicipal credit and establishing uniformity of bond prices and inuniformity of bond prices and in-terest rates. But are the ratepay-ers, say of Edmonton, prepared to leave it to a board irresponsible to them to say whether they may or may not pave a street, build a car line or add a unit to the power plant? That is the point upon which we have to make up our winds. It workingly the which we have to make up our minds. It certainly involves a somewhat radical surrender of the go-as-you-please borrowing and spending powers we have hither-to had and exercised. The ques-tion deserves very careful consid-cation, and a matured and final ration, and a matured and final Judgment, for once the veto pow-er was established it could not be withdrawn easily, perhaps not at all.

No one enjoys hard times, but the readjustments which hard times are bringing about in Canada will eliminate what was unstable and artificial in our conditions and prepare th way for a prosperity soli-based upon wealth production.

A pacification committee are trying to make peace between Vilia and Caranza. The role of the peacemaker is a proverbially unpleasant one. The experiences of these particular peacemakers is quite liable to be unpleasant if Vilia gets hold of them. Peace is the one thing he has cause to fear. Money advanced to thrifty farmers with which to bring more land interest that the cultivation or to buy stock is an investment, not a "risk."

The fighting is not all done of the battlefield. Whatever lessens the enemy is financial and business strength, weakens his power of resistance. Whatever increases employment and business on our side correspondingly strengthens "the sinevs of war."
